Dear HR Manager:

Subject: Application for the position of front-end developer

Respected Mr/Ms. HR,

My name is Srikanthreddy Kambala. I am excited to be applying for the front-end developer. After reviewing your job post from glassdoor.com it's clear that you're looking for an enthusiastic applicant that can be relied upon to fully engage with the role and develop professionally in a self-motivated manner. Given these requirements, I believe I am the perfect candidate for the job.

I have been successfully handling the responsibilities as front-end developer for over 2 years. Over the years, I have managed several projects successfully and also excelled myself technically with skills **HTML, HTML 5, Cascading Style Sheets (CSS), CSS3, JSON, JavaScript AJAX, jQuery, Bootstrap, ECMAScript 6, Typescript**. I like to take on challenges and prove my ability to deliver better results even in pressure cooker situations. My relevant experience and technical directions have helped in surpassing the expectations of several clients as well as ensuring timely delivery. I am fully aware of the role and responsibilities that need to be shouldered. I would like to attend the interview, so that I will be in a better position to provide details regarding my previous projects. Thank you for the time and consideration.

I am enclosing my resume and previous work certificates along with the letter. I kindly request you to arrange for a personal interview so that we can discuss in detail about the job position.

Thanking you

Sincerely,

Srikanthreddy Kambala
