Srikanthreddy Kambala
UI DEVELOPER
Email: kambalasrikanthreddy90@gmail.com
Ph No: 717-599-9131

PROFESSIONAL SUMMARY:

- 2+ years of experience in developing and designing complex WEB Applications **using Angular7, Angular CLI, HTML5/4, CSS 3/2, JAVASCRIPT, jQuery,NodeJs(v10.0.0) NPM, AJAX** and **JSON**.
- Experience in all phase of SDLC like Requirement Analysis, Implementation and Maintenance and extensive experience with **Agile and SCRUM.**
- Extensive experience in DOM manipulation using **JavaScript**, **jQuery**, **Angular**
- Strong experience on building web/mobile responsive design
- Sound Understanding and good Experience with Object Oriented Concepts, Object Oriented programming with JavaScript, Object Oriented Design and Implementation.
- Worked on advanced frameworks for Single Page Applications like **Angular7**
- Proficient in handling **Bootstrap** framework i.e., the concept of Grids, making use of advance components like **Navibars, Pagination, Alerts, Progress bars** etc.
- Into Single Page Application & worked in using **React JS** components, Forms, Events, Keys, Router, Animations and Flux concept.
- Extensive use of **AngularJS** for developing the SPAs (Single Page Applications) for internal application/tool & involved designing in web pages using HTML 5, CSS3, JavaScript, Typescript, Bootstrap, SASS, LESS, React.js, Redux, Flex, **Mongo DB**.
- Expertise in implementing the **MVVM** architecture
- Extensively used **Angular CLI** for building components, service, pipes.
- Worked extensively on web components which is the next generation UI design
- Extensively working on integrating restful services using angular framework modules(http, httpclient)
- Taking the product through the entire lifecycle of analysis, design, coding, testing and implementation and support
- Expertise in designing Event Handling Models such as Listener and Dispatcher in **OO JavaScript**,**Typescript** With back-end in **Spring MVC** (Restful services with annotation) architecture framework.
- Experience with **NPM**, **Bower, Gulp**, **Grunt** built task like Hibernate.
- Had good experience on **Agile Methodologies** and active participant in daily Scrum and Sprint meetings.
- Worked on modern browsers like Mozilla Firefox, Google Chrome, Safari and IE.
- Expertise in debugging and troubleshooting existing code using tools, Firebug, Inspect element, and IE developer tools.
- Worked closely with the product owners, QA teams and supported UI implementation efforts.
- Excellent skills in relationship management with clients and effective in guiding team during the project development life cycle and deliver the product within time line, cost and quality.

TECHNICAL SKILLS:

Web Technologies	HTML, HTML 5, Cascading Style Sheets (CSS), CSS3, JSON, JavaScript AJAX, jQuery, Bootstrap, ECMAScript 6, Typescript,
JavaScript Libraries	jQuery, NodeJS, Angular7, Angular CLI,npm, React JS
Debugging Tools	Firebug, Chrome developer toolbar, IE Developer tool
Web Application Servers	NodeJS, Tomcat, WebSphere, WebLogic
Database	Mysql, Oracle, Mssql,MongoDB
Tools	Eclipse, Visualstudio, Sublimetext

EDUCATION:

- Pursuing Masters for New England College.

- **Bachelors in Computer Science and Engineering**, JNTUK, India.

PROFESSIONAL EXPERIENCE:

SVS Technologies, Banglore,India   **02/18   to   02/20**
Role: UI Developer
Description: PricewaterhouseCoopers is the largest professional services firm in the world and is one of the leading global auditors. I worked on VCM (Vantage Compliance Management) Replacementgroup which is used by employees to raise requests based on roles. Different types of requests like material request, master data request, Events and register learners.
Responsibilities:
- Worked extensively **on Angular7, ui-bootstrap, HTML5, CSS3, JSON**, Media queries for various breakpoints in the adaptive web-designing environment
- Application is built using ExpressJS.
- Followed Agile methodology with aggressive timelines.
- Designing and developing dynamic web pages using **ANGULAR, HTML5, CSS3 and JavaScript (ES5 & ES6)**.
- Hands on experience in handling asynchronous calls with the web services and resolving observables to get the required data from API.
- Used jasmine and karma , potractor for testing application.
- Wrote UI code that interacts with **Restful web services**.
- Built Web pages that are more user-interactive using **Typescript**, **JavaScript and Angular JS**.
- Designed and developed **React.JS** component required for the project.
- Designed Frontend with in object oriented JavaScript Framework **like bootstrap, Backbone.js, Require.js, Node.js, Express.js, Angular.js and Ext.js.**
- Handled access level for application with different views based on their role from UI end.
- Used Jenkins for the automatic build process or code deployment.
- Developing Client Side Validations using JavaScript.
- Worked on building responsive design by collaborating with UX designers
- Used Bootstrap and Angular in effective web design.
- Worked on Cross Browser Issues for different versions of IE, Mozilla and Chrome.
- Developed various ideas in order to enhance UI and UX experience.
- Maintaining documents and source code in Git
- Strong communication, analytical and interpersonal skills working within cross-functional teams.
- Worked on cross browser compatibility issues and fix the bugs pertaining to various browsers.
Environment: Angular7, HTML5, CSS3, NodeJS,ExpressJS,JavaScript(ES5/ES6),Git,DOM, JSON, Jenkins.
